

Rocky Mount Academy is currently seeking applications for the following position: **Middle School Science Teacher**. Candidates should possess a bachelor's or master's degree in science or a related field and should have experience teaching middle school science.

Purpose

The primary purpose of the Middle School Science Teacher is to provide quality instruction in science including but not limited to chemistry, forensics, earth science, ocean studies, engineering, robotics, and STEAM in a variety of middle school courses. The successful candidate strives for excellence, fosters a passion for learning and personal growth, and works to establish effective rapport with students, parents, and other faculty members.

Rocky Mount Academy Recommends that Teachers of Middle School Science:

- Be fully qualified to teach science and have a strong knowledge of science content
- Nurture curiosity about the natural world and include opportunities to engage in science and engineering practices
- Engage students in multiple laboratory investigations weekly
- Incorporate independent and cooperative group learning experiences during the study of science and integrate science with other curriculum subjects using a multi-disciplinary approach
- Connect the classroom to the community through learning opportunities such as field trips, inspiring speakers, and local partnerships
- Promote societal goals for scientific, engineering, and technological literacy
- Exhibit strong collegiality, appreciation for the school's culture and core values, sincere interest in contributing to student life activities, and delight in his or her vocation

Interested applicants should send a resume and cover letter to Beth Murphy, Head of School, at bmurphy@rmacademy.com.
